CUSTOM WOODWORKING AT ITS FINEST

The Overlay Collection Difference

Overlay Collection is a family owned and operated business specializing in custom-made wood garage doors. Our small team of expert carpenters and craftsmen handcraft each door to your specifications. Our goal is to create the most visually-stunning and highest-quality doors available.

Unique Aesthetic

We understand that every home and homeowner is different. From design and wood species to stain and hardware, we allow you to customize every aspect. Our limitless options allow you to find the perfect complement to the look and style of your home.

Highest Quality

All our doors are handcrafted in the USA. Our team of carpenters and craftsmen perform everything from selecting lumber to assembling the doors. We make sure every detail is correct for an amazing aesthetic and seamless operation. Every door is built to furniture-grade with you in mind.

WHY OVERLAY VS. SOLID WOOD

Our technique of overlaying wood on top of a steel frame presents several benefits over solid wood doors:

- ✓ **Structural Integrity:** A steel frame prevents warping and sagging.
- ✓ **Resistance:** Our materials resist rot and deterioration.
- ✓ **Insulation:** Injected polyurethane creates a better insulated door.

“Our goal is to create the most visually-stunning & highest-quality doors available.”

INVEST IN THE BEAUTY OF YOUR HOME

A custom garage door is an investment in the aesthetic and value of your home. Feature for feature, our doors are designed and engineered to be the longest-lasting garage doors in the industry.

With durable custom designs, heavy-duty components, factory finishes, and the best warranties available, Overlay Collection garage doors are built to last, not to be replaced.

5 series

CUSTOM STYLE AT AN AFFORDABLE PRICE

5 Series garage doors are for homeowners who want elegance at an affordable price. With a wide range of colors and styles, you can find the right door to enhance the beauty of your home without sacrificing the quality and class you deserve.

HIGHLIGHT FEATURES

1

SUPERIOR CONSTRUCTION

5 Series doors utilize a 3-layer steel subpanel injected with polyurethane. This design provides superior structural support and durability.

2

REMARKABLE CRAFTSMANSHIP

All overlaid wood boards are glued and pocket-screwed to minimize separation, providing you with long-term peace of mind.

3

PROFESSIONAL CAD DRAWING

Every 5 Series door is built from a professional CAD drawing to ensure precision.

4

R-VALUE

Every door has a minimum R-Value of 12.9 or greater for maximum insulation.

5

PAINT OPTIONS

Choose from a wide range of paint options or provide a sample for color matching.
